Discover the Missing Link in Your Dual Language Instruction!

Biliteracy para todos™, your essential new resource for dual-language learning, is a uniquely designed, standards-based program carefully crafted for Spanish-English instruction, targeting language, content, and translanguaging practices.

Available for the **Early** and **Developing Stages** (the **Advanced Stage** is set to arrive March 2022), each stage of **Biliteracy para todos™** consists of two separate resources, which are available as standalone products or as one comprehensive package:

Cross Linguistic Connections (CLC)

is the pedagogy teachers use to guide students in noticing similarities and differences in English and Spanish phonology, morphology, grammar, and syntax as they talk about each language side by side.

Preview-View-Review (PVR)

small-group lessons provide a three-step bilingual strategy to: **1.** Access the students' home language. **2.** Activate background knowledge. **3.** Develop vocabulary before engaging in reading in the other language.

Student Texts

CLC and PVR sets include dozens of student texts—**480 for CLC** and **432 for PVR**—at each stage. Spanish texts are matched by their counterpart texts in English, and both are included for dynamic instruction and student engagement across languages.

MERCURI & PRATTS

Dr. Sandra Mercuri

Biliteracy para todos™ program authors **Dr. Sandra Mercuri** and **Vivian Pratts** have been a guiding force in improving student achievement. Mercuri & Pratts channel the latest research into effective practices for emergent bilinguals through teaching for interdisciplinary biliteracy, dual language, and language transfer. Their continuing work supports students in reaching academic and linguistic goals.
